

Transfer Students

The College welcomes qualified transfer students. Applicants for transfer should have a good academic record at the institution attended and must present full credentials for both college and preparatory work. Transfers need to complete the Faculty Report and the Statement of Good Standing Form. Both can be found on Bethany College's website. Prospective transfer students should review the College's transfer of credit policy which can be found on the College Website.

Applications for transfer students are accepted year-round. A thorough transfer analysis is completed by the Office of the Registrar to determine the number of credits that will transfer in to Bethany College. The Center for Enrollment encourages transfers to apply well in advance as the process for transferring can take up to a month for everything to be complete.
