

# Minor Field of Study

Students may include as part of their program of study one or more optional minors. Requirements for minors are described in detail in the sections of this Catalogue devoted to the offerings of the individual academic departments. Minors require between 15 and 24 credits of directed study. A student may earn a minor in an area of study as long as a minimum of 9 credits are completed in addition to those required for the student's declared major. Students may not minor in their major field of study.
