

Residence Life

Residence halls help to shape the experiences of residents and the campus. To foster camaraderie and a sense of community, students are encouraged to become engaged in the activities of their residence halls, as well as of the campus.

Bethany's residence life program offers a variety of living and learning environments. These options include traditional style residence halls and suite style living. The suites provide an opportunity for students to have a private bedroom while sharing a living room, small efficiency kitchen, and a full bath with only three other roommates.

Dining and food options are provided for students, faculty and staff by Bethany College Dining Services, contracted with Parkhurst. All students not commuting are required to participate in the College of meal plan. Dining options include the cafeteria and the Hub, as well as catering for special events.
